

Content Outline

Derrek Wang

Project: Microsite for Avatar: The Last Airbender

Because I will be focusing on a wide variety of topics, I will use a set of multiple smaller pages.

Subsites:

- **Plot synopsis** – a general overview of the plot, split up into the 3 seasons.
- **Characters** – a list of the main characters, focusing on the main protagonist group and the main antagonist. The list will contain a quick summary of the character and most likely a portrait.
- **Influences** – the show draws heavily upon East Asian cultures for visual style, as well as martial arts styles in action sequences. This section will list these influences with examples of where they are seen in the show.
- **Movie adaptation** – a short page outlining the reasons why the film adaptation, *The Last Airbender* by M. Night Shyamalan, was both a critical/commercial failure and a cultural embarrassment.
- **Reception** – the show has garnered widespread praise and acclaim over the years. This page will list awards and nominations, and reasons why the show succeeded where other “children’s shows” failed.
- **Sequel** – an overview of the show’s sequel, *The Legend of Korra*, and a brief subsection comparing it to the original.
